ARTICLE 7

Execution of requests

1. In order to comply with a request for assistance, the Requested Authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the Requested Authority when the latter cannot act on its own.

ARTICLE 9

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Party concerned is of the opinion that assistance under this Protocol would:
 - (a) be likely to prejudice the sovereignty of a SADC EPA State or that of a Member State of the European Union which has been requested to provide assistance under this Protocol; or
 - (b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2) of this Protocol; or
 - (c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the Requested Authority on the ground that it will interfere with an on-going investigation, prosecution or proceeding. In such a case, the Requested Authority shall consult with the Applicant Authority to determine if assistance can be given subject to such terms or conditions as the Requested Authority may require.
3. Where the Applicant Authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the Requested Authority to decide how to respond to such a request.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.
4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

ARTICLE 11

Experts and witnesses

An official of a Requested Authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will

have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

ARTICLE 12

2. The provisions of this Protocol shall not affect the obligations of the Parties under any other international agreement or convention.
3. The provisions of this Protocol shall not affect the EU provisions governing the communication between the competent services of the European Commission and the customs authorities of the Member States of the European Union of any information obtained under this Protocol which could be of interest to the EU.
4. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral Agreement on mutual assistance which has been or may be concluded between individual Member States of the

European Union and any SADC EPA State in so far as the provisions of the latter are incompatible with those of this Protocol.

5. In respect of questions relating to the applicability of this Protocol, the Parties shall consult each other to resolve the matter in the framework of the Special Committee on Customs and Trade Facilitation set up under Article 50 of this Agreement.

DESIRING to promote the development of GIs defined as indications which identify a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin, within the meaning of Article 22(1) of the TRIPs Agreement;

ACKNOWLEDGING the importance to their economies of the beverages sector and the need to facilitate trade in wine products and spirits between them,

ARTICLE 1

Application of the Protocol

1. The provisions of this Protocol apply to South Africa and to the EU ("the Parties").
2. Any other SADC EPA State may adhere to this Protocol in relation only to GIs by lodging an application with the Special Committee on GIs and trade in wines and spirits referred to in Article 13 of this Protocol ("the Special Committee").
3. This Committee may submit proposals for amendments to the Joint Council for consideration and approval of the accession of the SADC EPA State concerned to this Protocol pursuant to Article 117 of this Agreement.

PART 1**GEOGRAPHICAL INDICATIONS****ARTICLE 2**

Scope

1. This Part applies to the recognition and protection of GIs designating products falling under the categories of products indicated in the section headings of Annex I to this Protocol and originating in the territories of the Parties.
2. The provisions of this Part shall complement and specify the rights and obligations of the Parties under the TRIPs Agreement and other existing multilateral agreements to

which the Parties are party, and therefore, no provision of this Part will contradict or be detrimental to the provisions of such multilateral agreement.

3. For the purposes of this Part, the definition of 'geographical indication' is compatible with that laid down in Article 22.1 of the TRIPS Agreement.

ARTICLE 3

Protection of established geographical indications

1. The EU shall protect the GIs of South Africa listed in Annex I to this Protocol according to the level of protection laid down in this Protocol.
2. South Africa shall protect the GIs of the EU listed in Annex I to this Protocol according to the level of protection laid down in this Protocol.
3. When all the GIs respectively of the EU or of South Africa listed in Annex I to this Protocol and identified therein as GIs for which the priority date is indicated as 'date of entry into force' have been protected according to paragraphs 1 or 2, each Party shall notify the other that the protection has been applied.

ARTICLE 4

Right of use of geographical indications

1. A geographical indication protected under this Part may be used by any operator marketing the product concerned conforming to the corresponding product specification.
2. Once a geographical indication is protected under this Part, the use of such protected name shall not be subject to any registration of users, or further charges.

ARTICLE 5

Scope of protection

1. GIs referred to in Article 3 and listed in Annex I to this Protocol as well as those added pursuant to Article 7 of this Protocol shall be protected against:
 - (a) any direct or indirect commercial use of a protected name:
 - for comparable products not compliant with the product specification of the protected name, or
 - in so far as such use exploits the reputation of a geographical indication;
 - (b) any misuse, imitation or evocation including:
 - use in connection with an indication of the true origin of the product in question;
 - use in translation, transcription or transliteration;
 - use together with words such as "kind", "type", "style", "imitation", "method", or similar words or expressions;

- (c) any other false or misleading indication as to the provenance, origin, nature or essential qualities of a like product, on the inner or outer packaging, advertising material or documents relating to that product, and the packing of the product in a container liable to convey a false impression as to its origin;
 - (d) any other practice liable to mislead the consumer as to the true origin of a like product.
2. Protected GIs shall not be deemed to become generic in the territories of the Parties.
 3. This Protocol shall in no way prejudice the right of any person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where such name is used in such a manner as to mislead consumers.
 4. Where South Africa or the EU, in the context of negotiations with a third party, proposes to protect a geographical indication of the third party, and the name is wholly or partially homonymous with a geographical indication of the other Party, the latter shall be informed and be given the opportunity to comment before the name becomes protected.
 5. Nothing in this Part shall oblige South Africa or the EU to protect a geographical indication which is not or ceases to be protected in its country of origin. South Africa and the EU shall notify each other if a geographical indication ceases to be protected in its country of origin.

ARTICLE 6

Relation between geographical indications and trade marks

1. The Parties shall refuse to register or shall invalidate a trade mark that corresponds to any of the situations referred to in Article 5(1) of this Protocol and which relates to same type of product, provided an application to register the trade mark is submitted after the date of application for protection of the geographical indication in the territory concerned. In the case of invalidation, a competent authority of a Party may provide that invalidation shall only be effected pursuant to an application duly lodged by an interested party and brought in a manner prescribed in applicable legislation.
2. For the GIs listed in Annex I to this Protocol at the date of entry into force of this Protocol, the date of application for protection referred to in paragraph 1 shall be the priority date indicated in Annex I of this Protocol, without prejudice to the continued validity, in respect of a trade mark that was earlier in time than the said date, of priority rights that applied in the territory of a Party immediately before the date of entry into force of this Protocol.
3. For GIs referred to in Article 7 of this Protocol, the date of application for protection referred to in paragraph 1 shall be the date of a Party's receipt of a request by the other Party to protect a geographical indication, provided the said geographical indication is subsequently protected by the receiving Party.
4. The protection of a geographical indication under Article 5 of this Protocol is without prejudice to the continued use of a trade mark which has been applied for, registered or established by use in good faith, in the territory of a Party before the date of the application for protection of the geographical indication provided that no grounds for

the trade mark's invalidity or revocation exist in the legislation of the Party concerned. The date of application for protection of the geographical indication is determined in accordance with the provisions of paragraphs 2 and 3.

5. In respect of the GIs listed in Annex I to this Protocol and identified therein as GIs for which the priority date is indicated as 'date of entry into force', a trade mark applied for between the date of publication for comments or opposition of the said GIs and the date of entry into force of this Protocol that corresponds to any of the situations referred to in Article 5(1) of this Protocol shall be presumed to have been applied for in bad faith.

ARTICLE 7

Addition of Geographical Indications for protection

1. South Africa and the EU may add GIs to the lists in Annex I to this Protocol in accordance with the procedures set out in Article 13 of this Protocol.
2. A name may not be added to the list in Annex I to this Protocol where, in the territory of a Party, it conflicts with the name of a plant variety, including a grape variety, or an animal breed and as a result is likely to mislead the consumer as to the true origin of the product, or if it wholly comprises a generic term for similar product.
3. If a geographical indication referred to in Articles 3 or 7(1) of this Protocol is wholly or partially homonymous with a geographical indication protected or proposed for protection in the territory of the Party concerned:
 - (a) protection shall be granted to each indication provided that it has been used in good faith and with due regard for local and traditional usage and the actual risk of confusion;
 - (b) without prejudice to Article 23 of the TRIPS Agreement, South Africa and the EU shall mutually decide the practical conditions of usage under which the wholly or partially homonymous GIs will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled;
 - (c) a wholly or partially homonymous name which misleads the consumer into believing that products come from another territory shall not be protected even if the name is accurate as far as the actual territory, region or place of origin of the product in question is concerned.
4. South Africa and the EU shall have no obligation to protect a geographical indication where, in the light of a reputed or well-known trade mark, protection is liable to mislead consumers as to the true identity of the product concerned.
5. Without prejudice to paragraph 4, the Parties shall protect a geographical indication also where a prior trade mark in the sense of Article 6(4) of this Protocol exists.
6. With a view to the development of GIs in South Africa, South Africa may present up to thirty (30) names with priority for protection pursuant to Article 13 of this Protocol. The EU shall submit these applications to its internal procedures without delay.

ARTICLE 8

Enforcement of protection

1. The Parties shall enforce the protection provided for in Articles 3 to 7 of this Protocol by appropriate administrative action by public authorities and available juridical instances established under each Party's domestic or regional legislation. They shall also enforce such protection at the request of an interested party.
2. In so far as domestic and regional laws provide for enforcement mechanisms that are equivalent to those in application for comparable labelling, production, and intellectual property enforcement purposes, they are considered to meet the requirements of paragraph 1.

ARTICLE 9

Cooperation in management of geographical indications

1. The EU and South Africa shall notify each other, and may make publicly available, the product specifications or summaries thereof and the contact points for control provisions corresponding to GIs of the other Party protected pursuant to this Part.
2. GIs protected under this Part may only be cancelled by the Party in the territory of which the product originates.
3. Any matter arising from a product specification of a protected name shall be dealt with in the Special Committee. A product specification referred to in this Part shall be the one approved, including any amendments also approved, by the authorities of the Party in the territory of which the product originates.
4. The provisions of this Part are without prejudice to the right to seek recognition and protection of a geographical indication under the relevant legislation of South Africa or the EU.

PART 2

ARTICLE 10

Scope and coverage

This Part applies to wine products and spirits falling under headings 2204 and 2208 of the International Convention on the Harmonised Commodity, Description and Coding System, hereinafter referred to as the 'Harmonised System', signed at Brussels on 14 June 1983.

3. The Parties may jointly decide, by way of amendment to Annex II to this Protocol, to add, delete or modify references to product definitions, and oenological practices and restrictions. Such decisions shall be adopted by the Special Committee according to its procedures.
4. In respect of oenological practices, the Parties reconfirm their WTO undertakings in relation to national treatment and the most favoured nation principle, having regard in particular to their undertakings in Article 40 of this Agreement.

ARTICLE 12

Certification of wines and spirits

1. For wine products and spirit drinks imported from South Africa and placed on the market in the EU, the documentation and certification that may be required by the European Union shall be limited to that set out in Section A2 of Annex II to this Protocol.
